

Sean Seale

Software Engineer & Frontend Developer experience

Junior Software Engineer

Managed and implemented primary ad portal for the project, Vuejs frontend with firebase and chargebee for buying ad campaigns.

8Secondz
Engineering
May 2021 - Present

Digital Producer / Web Developer

Initially focused on content creation in the form of videos, graphic design and motion graphics. Shifted to Web development using Wordpress and Javascript.

Cactus Can
Web Dev
June 2020- May 2021

Ski Instructor

Running adult, private and kids lessons at Lake Louise ski resort. Consistently showing leadership and communication ability.

Lake Louise Ski Resort
Ski School
Nov 2018 - May 2020

Projects

Personal Portfolio - React JS

Built a fully mobile responsive personal website using React JS, React Router and framer motion, hosted at seanseale.com

Movie Trailer & Watch list - Vanilla JS

To build my knowledge of javascript without relying on frameworks like Vue & React, I set about creating a movie service using the fetch api and vanilla javascript.

education

Bachelor's Degree in Media

Sydney NSW

Macquarie University
March 2016 - Oct 2019

I am passionate about building and learning. Bringing past experience from various creative fields, creating unique UI implementations and well crafted software.
